## Midyear Evaluation and Appraisal Overall Rating

**Above Standards ( )    Meets Standards ( )    Below Standards ( )    Unacceptable ( )**

- Note: 1. If any Critical Element is rated "Below Standards," the best possible overall rating is Below Standards.
2. If any Critical Element is rated "Unacceptable," the best possible overall rating is Unacceptable.
3. If one to three other elements are rated "Unacceptable," the best possible overall rating is Below Standards.
4. If three or more Critical Elements are rated "Below Standards" or over four other elements are rated "Unacceptable," the best possible rating is Unacceptable.

Below Standards: The holder is given notice regarding which element(s) justify the rating, and if performance in this element(s) is not improved prior to the next rating period, the Below Standards rating shall be reduced to an Unacceptable rating.

Unacceptable: The holder is issued written notice of the Opportunity to Take Corrective Action as stipulated in Section V (C) of the Special-Use Permit. This is the required first step in suspension and/or revocation of use over all or portions of the permit area. In some instances, such as a lack of adequate insurance, safety issues, etc., suspension or revocation may take place immediately.
